

Aruba's famous and unique DIVI DIVI tree shaped
by the ever present trade winds.

AIR MAIL

dear bert,
greetings from the
southern hemisphere.
aruba, 12 miles from
venezuela, is a desert-
like paradise. sun, sand
and ever blowing tropical
breezes. i am trying
to be laid and clear my
brain, but it isn't easy.
even here, there are plenty
of people trying to lay
a trip on a single black
woman. i trust all
goes well. don't you
dare move to n.y. before
i get back. call you
when i get back.
